Bradley Donahue

Phone: (555) 555-5555 | Email: donahue.bradley@gmail.com | Kennesaw, GA 30144
www.linkedin.com/in/bradley-donahue-dev | https://bradleydonahue.me | https://github.com/brhue

Driven full stack developer with a background in customer service excited to help build a more open and inclusive web. Earned a certificate in full stack development from Georgia Tech and developed skills in Javascript, React, Node.js, and more. A dedicated problem solver with an attention for details, focused on writing performant and clean code to bring great tools and experiences to everyone across the web.

TECHNICAL SKILLS

Languages: Javascript ES6+, CSS3, HTML5, SQL, NoSQL | **Applications:** Postman, MongoDB, MySQL Workbench |
Tools: Express, React, Node.js, Git/GitHub, *nix

PROJECTS

Rinkside | Sole Developer | https://github.com/brhue/rinkside | https://rinkside.bradleydonahue.me
Rinkside is a web app for hockey fans to follow their favorite NHL teams and get up to date information from scores and standings to live game stats.
- **Role:** As the sole developer I built a React SPA with client side routing from react-router. Made a single game view that includes detailed match information and live updating game stats when the game is in progress. Created a schedule to view games day by day.
- **Tools:** Javascript ES6+, React, tailwindcss

Cobalt Canvas | Full Stack Developer | https://github.com/brhue/Cobalt | https://cobalt-canvas.herokuapp.com/
Cobalt Canvas is an app for collaborative drawing with an MSPaint aesthetic. Users can create drawings and save and share them with others to further edit and share.
- **Role:** Built the full drawing experience and tools to be used using the Canvas API. Implemented a history feature for undo/redo. Created the models and controllers that handled saving and sharing of drawings.
- **Tools:** HTML and CSS/Bootstrap, Javascript ES6+, MySQL/Sequelize, Node.js/Express, Handlebars, Heroku

WeatherApp | Sole Developer | https://github.com/brhue/weather-dashboard |
https://brhue.github.io/weather-dashboard/
Weather app that provides current and future weather forecasts for any city submitted by the user.
- **Role:** Built the HTML and CSS to display the current weather of a queried city. Made a recent searches list that persisted through visits via local storage. Also built a responsive mobile-first design.
- **Tools:** HTML, CSS, JavaScript ES6+/jQuery

EXPERIENCE

Rev Coffee Roasters   2015-2020
Barista, Smyrna, GA
Crafted drinks and provided coffee knowledge to a variety of customers in a fast-paced coffee shop.
- Successfully provided strong customer service to over 100+ guests daily which encouraged repeat business and increased revenue.
- Coordinated with front of house and back of house to ensure accurate food and drink deliveries to guests in an efficient manner.
- Promoted quickly to head barista based on excellent service and increased revenue.
- Expertly trained new baristas and helped management develop and implement training guides and procedures.

EDUCATION

Georgia Institute of Technology, Atlanta, GA
Full Stack Web Development Certificate
